THE GETC SERVICE

DESIGN

GETC offers early stage design and value management services to assist our clients in cultivating the right products to suit their project and budgeting needs.

Our 20+ years of experience delivering accommodation projects across the globe has allowed us to become a valued partner at all stages of a project's lifespan — ensuring our clients' budgeting, design & quality expectations are met and delivered upon.

Our in-house design and drafting team can assist in the design, drafting & prototyping of custom project inputs to remove any uncertainty prior to manufacture.

→ MANUFACTURE

Our manufacturing reach encompasses 12 primary facilities and over 100 associate manufacturing partners — strategically located throughout China, Malaysia, Thailand, and Australia.

Our industry-leading facilities, raise the manufacturing quality benchmark, delivering specialist products at competitive market price points.

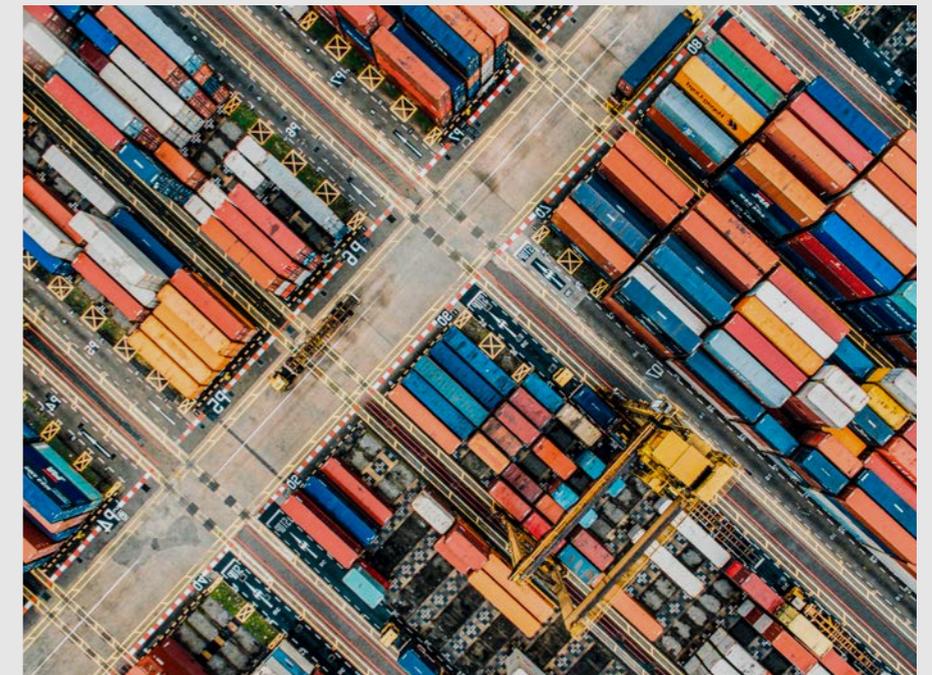

Extensive tooling, equipment and material sources mean we have a 100% 'concept-design to finished-product' delivery record.

→ DELIVERY & INSTALLATION

5000+ project specific global container movements each year with international forwarding & tracking. Supply Chain Efficiency providing shipping, freight management & rigorous documentation control.

The 'on the ground' support for each project involves the delivery to site of scheduled consignments. With our dedicated project teams available to deliver projects across the globe, we provide one of the most comprehensive end-to-end services of any supply partner.

PROJECT SUPPLY CAPABILITIES

FF&E PACKAGES

A core element of any productive property is the FF&E package. We work closely with our clients to ensure a fit for purpose commercial furniture solution is designed, manufactured and delivered on-time and under budget.

We offer both standard catalogue items and custom manufacturing services to bring our clients furniture design ideas and creations to life. Whether your property requires workstations, task-chairs, sound-proof phone booths, breakout area furniture, mattresses, bed frames, bins, lighting, or occasional seating — we can cater to all your project needs.

Our specialised furniture QA, QC, engineering and manufacturing teams have been carefully trained to only produce the highest of quality goods — ensuring the longevity of all of our furniture items supplied.

JOINERY PACKAGES

GETC produces complete joinery packages, designed to suit both commercial, high-density residential, hospitality and education accommodation projects. Our state-of-the-art facilities routinely produce 2pac, veneer, laminate, and melamine finishes.

Clients enjoy peace of mind knowing world-class manufacturing facilities control all elements of the joinery, common area and specialty requirements. Using a range of locally and internationally sourced project inputs, dedicated tradesmen, and artisans craft bespoke spaces to meet the most discerning design concept.

CUSTOM PROJECT INPUTS

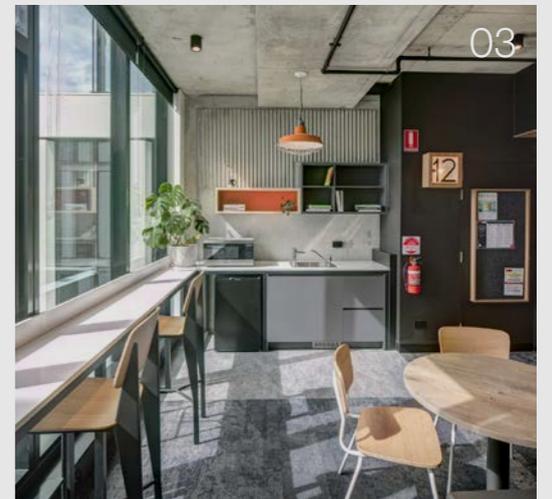

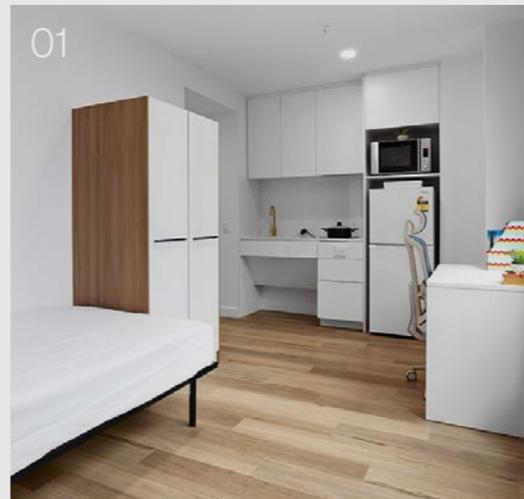

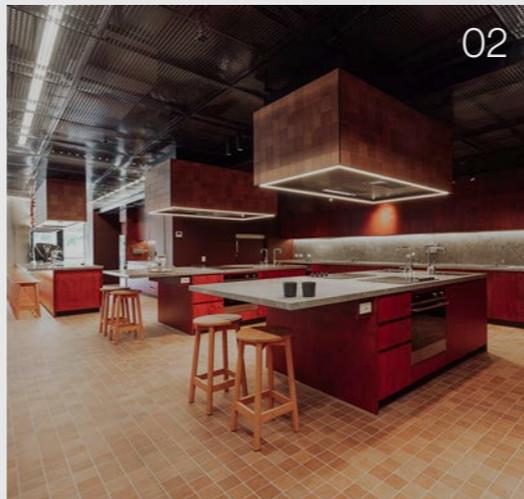

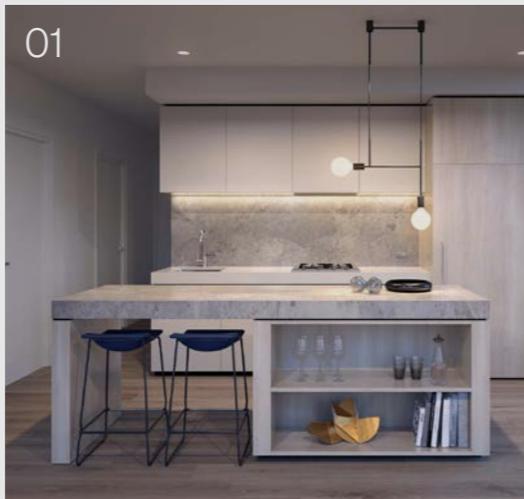

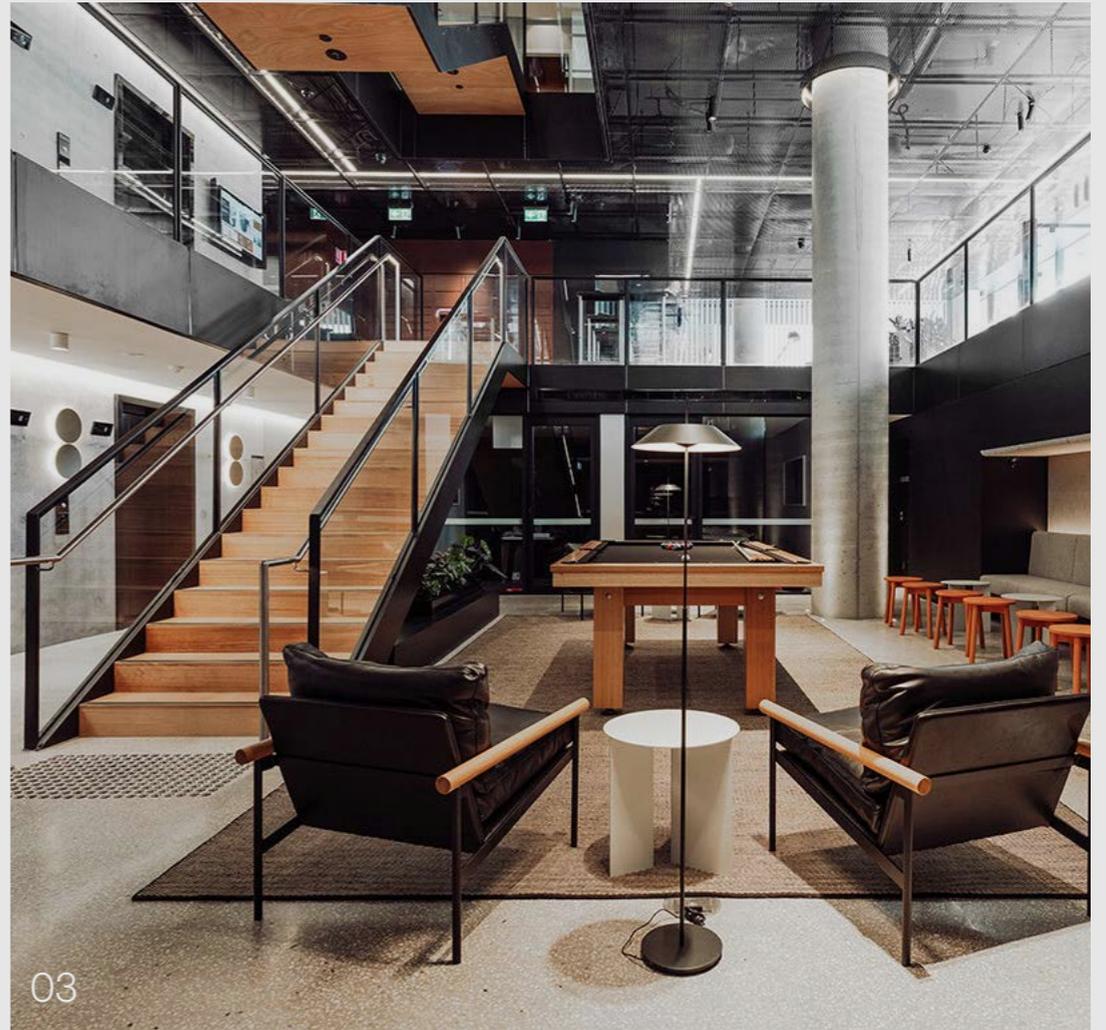

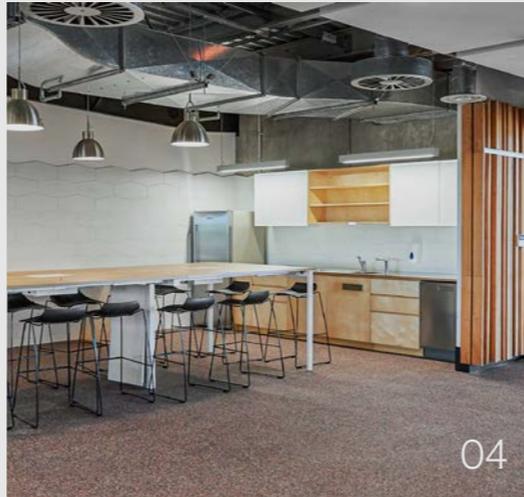

GETC regularly work closely with our clients to bring their custom project requirements to life. Be it accommodation sleeping pods, prefabricated bathrooms, acoustic ceiling & wall panels, ornate fabricated steel items or custom lighting requirement we have the manufacturing, engineering, and project delivery capabilities to outperform any of our competitors.

Our knowledgeable and experienced design, engineering, drafting and manufacturing teams will work with you to assist you throughout the end-to-end process to ensure the final product is delivered on time and under budget.
